

NEWS RELEASE

Park River has an app and it's finally time for you to download it! Why? Let me explain.

Small towns are connected in a way you won't find in larger cities. A way that people should be connected. But instead of relying on bulletin boards to communicate important news and events, what if there was an easier way?

Meet your Park River app, powered by Living Local – an app for the towns that thrive on connection. With the app, you can find all our crucial community information all in one place. Key features include alerts and updates, school information, community calendars, tornado warnings, health and wellness messaging, community boards, first responder recruitment and even content from local media outlets.

Search Park River in the Google Play or Apple Store to download today!

Our community is beautiful. Connect with it.
